

# The Informer

you can  
**Canon**

June 2006 - Issue 19

## They think it's all over...

**It's count down to kick-off - on June 10th England embark upon their World Cup Campaign against Paraguay in the first of what**

**the whole nation hopes will be a long and fruitful competition.**

Every four years I get excited about the World Cup, and for me, someone who is not known as the greatest football fan in the world it's a fantastic occasion. Last time round we were meeting at 7:00 in the morning with bacon sandwiches in our offices to follow England's progress and I'm sure all of you have similar stories.

One thing's for sure, I know where the metatarsal is now!

In this month's edition of 'The Informer' we have a mix of company, industry and current news for you with our partners Canon introducing a couple of new High Volume digital photocopiers and it's getting very close to the end of the colour-cashback promotion that

has been running.

June has now started and we are hoping for nice weather to accompany our boys' exploits in Germany and the flow of bank holidays cease for the time being - I know, it's a shame but maybe we can now look forward to a well deserved summer break at some stage.

Enjoy your time out to read this and I hope that next time we go to print we can still be cheering England on.

**Cheers**

**Aaron Bailey  
Managing Director**

## Cash back offer ends soon

**The Cash back offer that has been running for the past two months is drawing to an end - so for those of you out there that have been mulling over your new purchase that means that there is just over two weeks to claim your £500.**

Remember - to qualify for this extra 'dough', an order and delivery of a Canon iRC2620, iRC3220, CLC2620 or CLC3220 has to be completed, and, whether payment is made outright or on finance C & G Business Equipment will return a 'Monkey' - £500.

With outstanding colour capabilities and versatility, the cutting-edge solutions are hard to beat. Offering fast processing power and advanced professional finishing, this easy to use, space-saving device handles a huge range of professional workflow requirements from beginning to end.

With minimum downtime and 'all in one' flexibility, the systems enable you to deliver professional colour profitably, saving money to invest elsewhere in your business.

All of the Canon colour photocopiers offer professional print and copy production, fast processing power and excellent finishing - in fact, you could say that this is your license to print money!

All you have to do to take advantage of this excellent offer is to take delivery of your system, and C & G Business Equipment will arrange for you to be reimbursed.

Now, with this extra incentive there is even more reason to place your order with C & G Business Equipment Ltd and while you are producing your top quality colour prints and copies you can let your mind wonder as to how you can best invest your new-found wealth.

**Contact C & G Business Equipment now on the details on the right.**

# New Product Launch

## Canon iR 7086/7095/7105

### ● iR7086

iR 7105 have all been introduced at the top of the range and replaces the iR 105 and iR 9070.

### iR 7086

**Ideal for corporate environments that need production-level output on the office floor, the iR7086 fits the bill. Affordable and powerful it brings outstanding copying and printing to your business.**

#### Features

Powerful production at 86 ppm  
High quality printing and copying  
Integrates seamlessly into your existing environment  
Professional document production at speed  
Large touch-screen operation  
Advanced security

#### Further Information

When you need a powerful performer for demanding print environments, the 86 ppm iR7086 is ready to meet a diverse range of challenges. Designed for corporate offices that need production level speeds without the need for outsourcing, it fits seamlessly into your business and brings added productivity to your staff.

#### Consistent quality

New high resolution toner technology ensures superb line and text definition and consistent solids and half tones now, and years down the line.

#### An operator's dream

Operation of the iR7086 is simplicity itself, enabling the device to fit seamlessly into your existing workflow. A large 10.4 inch high-definition TFT colour control panel gives operators complete control of the production cycle.

#### Seamless integration

The iR7086 fits seamlessly into any IT environment. Sophisticated yet simple network management tools give you exceptional device control and management over the network.

#### Exceptional finishing

With the iR7086 you can produce professional looking documents in-house and save yourself the cost and expense of outsourcing. Saddle-stitched booklets can be produced of up to 80 pages and a staple cutter ensures an outstanding finish every time.

### ● iR 7095

unrivalled at this level.

**To show its commitment to supplying the very best when it comes its range of digital solutions, Canon has launched a staggering three new High Volume digital photocopiers for those that need fast, efficient and high quality volume prints.**

The iR 7086, iR 7095 and the

#### Features

Powerful production at 95 ppm  
Unrivalled finishing options - first in-line perfect binding in its class  
Integrates into your existing workflow  
High capacity feeding, insertion & stacking for extended production runs  
Large touch-screen operation

#### Consistent quality

New high resolution toner technology ensures superb line and text definition and consistent solids and half tones now, and years down the line.

#### An operator's dream

Operation of the iR7095 is simplicity itself, enabling the device to fit seamlessly into your existing workflow. A large 10.4 inch high-definition TFT colour control panel gives operators complete control of the production cycle.

#### Powerful workflow

The iR7095 integrates into your existing workflow and fully supports Print-on-Demand production environments. And with superior paper handling and finishing functionality, complex jobs are easily catered for.

#### High-speed scanning

Combine hard copy into your digital workflow at 85 ppm thanks to integrated high-speed document scanning.

#### Exceptional finishing

The iR7095 brings top-end document finishing to the world of affordable mid-range production:

#### Non stop productivity:

Allow production runs to keep on running thanks to high capacity stacking and a removable trolley to transport printed output to off-line finishing.

### iR 7105

**Designed to cope with your toughest schedules, the iR7105 prints at a super-quick 105 pages per minute and is configurable with a range of finishing options unmatched at this end of the market.**

### ● iR 7105

#### Features

Powerful production at 105 ppm  
Unrivalled finishing options - first in-line perfect binder in its class  
Integrates into your existing workflow  
High capacity feeding, insertion & stacking for extended production runs  
Large touch-screen operation

#### Further Information

# Techie Corner

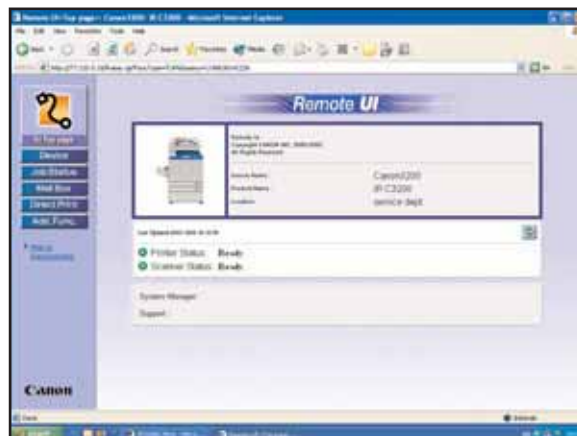

## Canon Remote User Interface (RUI)

In this months issue we show you the benefits of the RUI - and how it appears on your screen.

Networked Canon ImageRUNNER systems include the Canon RUI, a web-based administration tool which provides access to the ImageRUNNER's status and configuration from any user desktop on the network.

Users can view status of jobs, while administrators can troubleshoot and configure options. As it is web-based, the RUI does not require the installation of software on any user desktop - It is fully supported from the ImageRUNNER itself!

All you need to access the RUI is type in the IP address of your Canon device into internet explorer(Ask your IT department if you do not know the copier IP address).

# Recent winners collect their Champagne

● Matt Curtis from Polyvine Ltd

Pictured are the winners from The Informers past two competitions, Matt from Polyvine LTD was closest in our March spot the ball contest while Bella, Lucy and Zoe from SIS Ltd proved that persistence is the key as they got to grips April's caption competition.

Matt is seen collecting his bottle of Champagne from Service Technician Steve Lake while the Bella, Lucy and Zoe try to discover ways of splitting the bottle three ways!

To enter this month's competition turn to the back page to see what is in store this month.

Polyvine from Berkeley, GLOS supplies acrylic paints and coatings and

strives to develop the most technically advanced acrylic products and with more than 20 years experience you can see why Polyvine has gained world-wide recognition.

SIS Direct sells possessions insurance for students through the Internet. It has many years experience of the student market, and student possessions insurance in particular. SIS has learnt its trade with one of the best known names in student insurance, so you can be sure it knows what its talking about!

● The girls from SIS Ltd

# Make us laugh

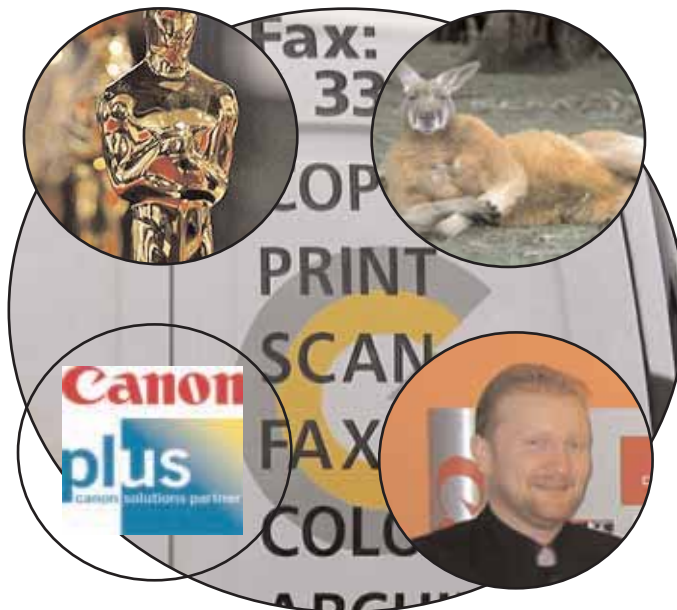

Last month we told you ten things that you never knew about your supplier - in fact, this was a lie...

Only nine of the facts were true and one of them was completely made up, and it was up to you to point out which one.

This was quite a popular competition but not all of you were able to spot that the made up story was that of Steve Lake and his one and only ever attempt to play football. So despite stories of people's country of birth and photocopiers being used on TV sets which were all true, this months winner is:

Darren Edwards from Imagefast

The Bubbly is on its way Darren!

## June - Caption time!

As World Cup fever grips the nation we have decided to revert back to our caption competition and back to the football theme.

Can you tell us what is going on or what is being said in this month's image.

The winner will receive a bottle of Champagne courtesy of C & G Business Equipment Ltd.

Email your answers to [info@cgcopiers.co.uk](mailto:info@cgcopiers.co.uk) and put 'June Caption' in the subject box.

# ...it is now
